★★★★★ **“** *Glenn is both professional and friendly, follows up on any changes that need doing and answers problems during the build. I didn't go for full project management but that didn't mean he didn't help me when structural changes needed doing during the initial stages.* **”**  
- Emma Power, 49 Goodrich Road East Dulwich

★★★★★ **“** *After being very frustrated by another architect, Glenn was recommend to us via a friend. From the onset his positive approach and 'can do' attitude was a far cry from our previous experience. Our build had very specific needs for us and we had previously been told that only some could be met. This was not an option for us. Glenn however, would not be beaten. He met all our requirements with some very innovative designs and clever storage options which not only pleased us but also planning regulators. We now have the home we desired thanks to Glenn and his team at Bluelime. Our experience in working with Glenn has been fantastic. We found him not only very professional but his personal approach and caring was very welcoming. We would highly recommend Glenn and Bluelime home designs as they deliver a very excellent service.* **”**  
- Nicholas Campbell, Ballymena, Co. Antrim, Northern Ireland

★★★★★ **“** *Fantastic service for a reasonable fee. Accommodating to our needs but also working within your budget would definitely use again.* **”**  
- Huma Mohammed, 469 Footscray Road, New Eltham

★★★★★ **“** *We have worked with bluelime for several years and would definitely recommend their services. The design detailing provided by bluelime is second to none and definitely saves money in the long run as nothing is left to chance. There are hardly any variations during the build as everything is detailed out exactly from the start meaning their projects always remain on budget. Highly recommended.* **”**  
- Stuart Harper, GA Harpers

★★★★★ **“** *Excellent service, professional and attentive, with great planning suggestions.* **”**  
- Steve Dagg, 11 Wimott Road, Dartford

★★★★★ **“** *I met Glenn approximately 10 weeks ago and the initial discussions; survey and selection of drawings made available to me happened very quickly. No problems in recommending this service. All very seamless and the drawings are now with Bexley Council awaiting approval.* **”**  
- Vincent Mitchelle, 499 Hurst Road, Bexley

★★★★★ **“** *Bluelime have helped me on 4 projects so far. Their work is excellent and very creative. I will be using them again on future projects and recommend them to anyone without hesitation.* **”**

★★★★★ **“** *We needed an extension to our house which was to double its size. The project needed a great deal of thought and planning to deal with complicated roof changes and drainage issues. Bluelime handled the project from start to end and dealt with all aspects of the process. Glenn was extremely professional, creative but very functional with the design, listened to what we wanted and made suggestions to areas we hadn't thought of. The outcome is much better than we ever imagined. Thank you for all of your hard work.* **”**  
- Nick Lyons, 35 Hill Crescent, Bexley

★★★★★ **“** *We approached Glenn a few months ago having read so many positive reviews about his work and we haven't been disappointed. We have been very impressed with the level of service he has provided. His professional expertise, knowledge & attention to detail has been outstanding. He has worked with us to keep the costs down on materials etc. without compromising on quality. The drawings he put together for us are everything we wanted and more, he was able to completely capture our vision on paper and also gave us lots of very good ideas which we have decided to incorporate into the design. We had to put the project on hold for a while due to unforeseen circumstances. Glenn was very flexible, he was able to work around our circumstances. We are now at the planning permission stage and I am confident that at the end of the process we will get the approval we are so eagerly awaiting.* **”**  
- Paula Adisa, 28 Tappan Drive, Chatham

★★★★★ **“** *Glenn's appreciation of the possibilities for our extension far exceeded our own ideas. He successfully maximised light and space in our Victorian property while maintaining the character of the building. He was very supportive while guiding us through the challenging planning process, and managed the building tender process with great attention to detail, which continued through the project management phase. Overall we are delighted with our finished home and would definitely recommend Bluelime.* **”**  
- Nicola Jones, 15 Knoll Road, Bexley

★★★★★ **“** *With a growing family and the need to modernise our house we wanted advice on a possible Loft and Ground Floor extension. After discussing our requirements with a few different architects we met with Glenn from Blue Lime. Glenn was friendly, helpful and really listened to what we were trying to achieve as a family. Glenn suggested a couple of different ideas and then quickly put together some initial drawings. One of the best things about using Blue Lime are the inclusive packages they offer which are easy to understand and mean that Blue Lime take care of everything, from finalising the drawings, to managing the planning application process and initiating building control. Glenn was always available whenever we had questions and was always happy to meet in person or chat things through over the phone. Once the builders had been appointed Glenn would continue to stay in touch to see how things were developing. Planning building works are stressful at the best of times, but Glenn really helped remove the stress from the process. Whether you just need basic drawings or a full service package I would definitely recommend using Glenn and the Blue Lime team.* **”**

“

*We really needed more space for our 2 boys and our existing conservatory area wasn't really working for us. Glenn came to us on recommendation and has been a pleasure to work with. Glenn totally understood what we needed and came up with some really good ideas and various design options. He explained clearly how the whole process worked and really took on total responsibility so we did not need to worry about anything. Now we will have an amazing new house with large open plan Kitchen Diner and Island unit we always dreamed of. Our boys not only have their own En-suites but now have the entire loft area for games and cinema room when their friends come round meaning the rest of the house is free from clutter. If you want to extend your house and actually quite enjoy the process - Glenn is the guy to use. He really cares in getting it absolutely perfect for you and making sure he gets the best he can for the budget you have.*

*We have worked with Bluelime on several projects. They listen to what you need and are able to come up with some great design ideas that you wouldn't even think of. When it gets to construction stage they makes things really easy. There is so much detail on their designs nothing is left to chance so we know exactly how much the project is going to cost from the start. That means the budgets are seldom exceeded. Other designers we have worked with in the past have appeared less cost but they do not provide anywhere near the complete service that Bluelime does. When we used to work with other designers we found many of our projects going over budget as corners were cut during the design process with things like the electrics and heating systems not designed out properly. We will not be tempted with low cost design services again and very much believe you get what you pay for. Bluelime will save you money in the long run and we would not hesitate in recommending them for this type of work.*

- David Gates, 26 Kenmara Close, Crawley

*Bluelime have done several projects with us now. We have found them very professional and attentive. When we were looking for architectural design services we considered several designers at the time. Bluelime were not the cheapest but the service they provided was way more than the others and worth every penny. Bluelime's designs are so detailed and extensive it even included spotlight and plug point positions which saved heaps of money when the build starts as everyone involved in the project knows exactly how much its going to cost upfront. Bluelime even provide budget costs for each design option they do which were unlimited – I think they done about 10 different options with budget costs for each one on one of our projects. They did not charge anything extra for any of this extra work. It was all included. Another designer we looked at charged an hourly rate for work done in the event the planning application got rejected. Bluelime did not charge anything at all they just get on with it and get the job done so everyone is happy. Don't be fooled by low prices from others, its never as it seems and Bluelime was great value for money taking everything into consideration*

“

*We have worked with Bluelime Home Design for several years now and have got to say they are the best architectural practice we have worked with. When comparing their costs with others they can be seem more expensive at the outset but when you break it down into the component parts they do far, far more than the others we looked at. These extra services such as estimating likely build cost, planning permission guaranteed, drawing of all the electrical sockets and lighting etc saves loads of money in the long run and meant there were no hidden surprises or extra cost later during the build. In other words it means the projects are pretty much risk free. Using Bluelime is a no brainer if you want to know the cost of your job upfront, want an amazing home extension and reassurance that your project is in good hands. Its a risk free solution which we will be using again.*

★★★★★  
*We were very pleased with the service provided by Bluelime Home Design. We converted a bungalow into a full two storey house. Glenn Williams provided us with several design options based on our needs, dealt with all aspects of the planning stage and recommended a number of builders. Overall, we could not fault this company and would highly recommend. We will definitely use Bluelime again in the future.*  
- Glenn Balcombe, 77 Wansunt Road, Bexley”
- “  
★★★★★  
*Glenn and his team came to quote on our project and really brought a lot of value already during the initial discussion (much more than some architects bring after full engagement). They came up with many ideas and developed a very detailed design proposal, which reflected not only their ideas, but our thoughts as well. The price was very reasonable and we would have no doubt in choosing them if the project went ahead (unfortunately it did not, but we still wanted to write this review as the guys did such a great job...)!*

★★★★★  
*If you want your ideal image of a home to come to life then Blue Lime home design are the people you should contact. They were able to help me visualise every part of my house the way I wanted it before we even began the project. The enthusiasm they had was really appreciated as was their vast array of experience in constructing dream homes.*  
- Riti Patel, 93 Avondale Road, Bromley”
